SUMMARY

Full Stack Developer with experience in JavaScript, React.js, Node.js, Express.js, MongoDB. Seeking to leverage skills in developing scalable web applications and integrating intelligent features. Proven ability to design and consume RESTful APIs, optimize application performance, and build full-stack applications using MERN stack.

SKILLS

C++ | JavaScript | TypeScript | Kotlin | HTML | CSS | Tailwind CSS | React.js | Node.js | Express.js | MongoDB | MySQL | REST APIs | DBMS | OOPS |
Data Structures & Algorithms | Git & GitHub | Android Studio | GenAI API Extensions | Postman .

EXPERIENCE

Android App Developer Intern Mindmatrix

Feb 2026 – May 2026, Bengaluru

- Developed scalable Android applications using Kotlin and Android Studio, implementing modern UI and architecture practices.
- Integrated Generative AI APIs to enable intelligent, context-aware in-app features, enhancing user interaction and functionality.
- Designed and consumed RESTful APIs for seamless data communication, while optimizing application performance to improve responsiveness and efficiency.

PROJECTS

Interview Master – AI Interview Prep Platform | [Link](#)

Feb 2026 – Mar 2026

- Built a full-stack AI-powered platform to analyze candidate readiness for job roles.
- Implemented JWT-based authentication and scalable REST APIs for secure user management.
- Integrated Google Gemini API for resume-job matching, skill gap analysis, and personalized preparation plans.
- Developed AI-driven modules to generate technical and behavioral interview questions.

Delish - Restaurant Web Application | [Link](#)

Jan 2026 – Feb 2026

- Developed a full-stack restaurant web application featuring menu display, services overview, and table reservation system.
- Built a responsive and intuitive UI using React.js for seamless user experience.
- Designed RESTful APIs with Node.js & Express.js and integrated MongoDB for efficient data handling.
- Implemented dynamic reservation management and optimized performance for smooth interactions.

Paste App-React-Based Code Snippet Manager | [Link](#)

Nov 2025 – Dec-2025

- Built a text/code management app using React.js and Redux Toolkit for efficient state handling and seamless data flow.
- Implemented features for creating, editing, and managing code snippets, enhancing user productivity.
- Designed a responsive UI using Tailwind CSS with reusable components for scalability and performance.

ACHIEVEMENTS

AICTE-Edunet certified program: Building Modern Web Applications with MERN Stack | [Link](#)

2024-2025, Bengaluru

Solved 200+ Data Structures & Algorithms problems on LeetCode | [Link](#)

EDUCATION

B.Tech in Computer Science & Engineering

2022 – 2026, Bengaluru

City Engineering College(VTU)

- CGPA: 8.1/10.
